

## CASE STUDY

# PERI DEPLOYS BI HUB AS A SINGLE PORTAL SOLUTION TO BRIDGE AND CONSOLIDATE GAPS BETWEEN LEGACY AND MODERN BI PLATFORMS

INDUSTRY:  
Manufacturing

LOCATION:  
Germany

REPORT USERS:  
2000+ Users Worldwide

## CHALLENGES FACED WITH PERI'S BI LANDSCAPE:

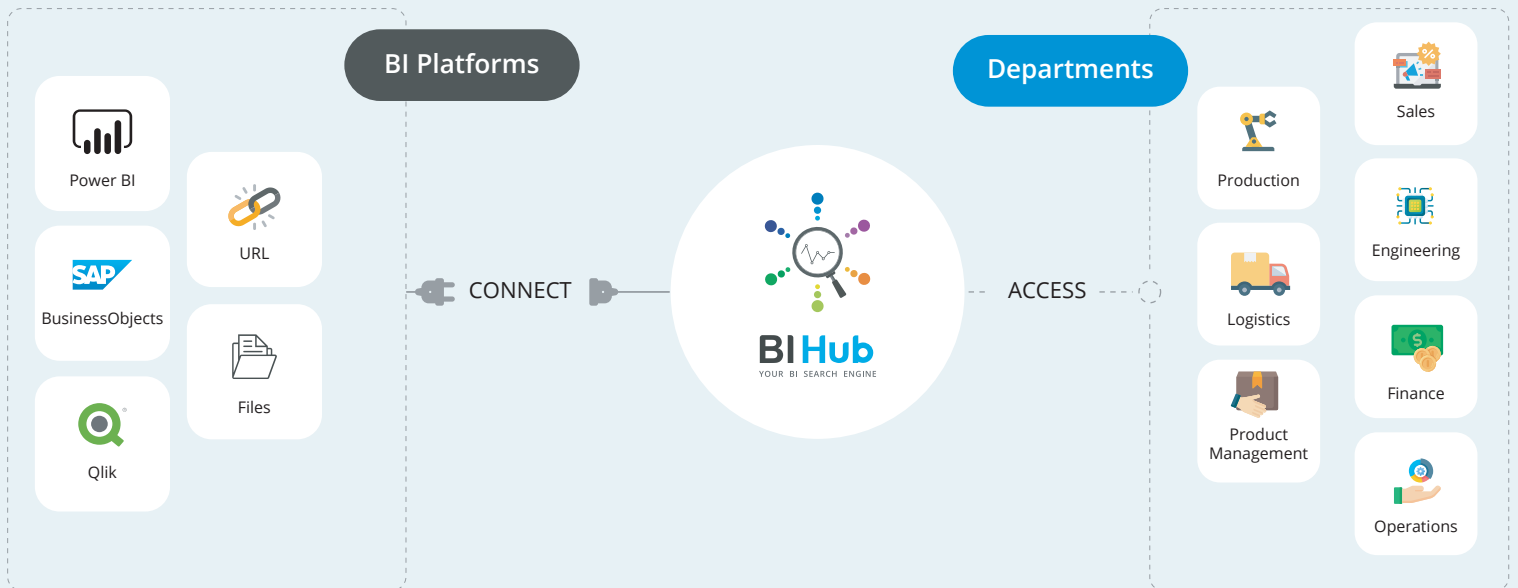

Peri's BI portal solution previously was designed to accommodate only legacy platforms such as native SAP Business Objects reports. They required a modern solution that allows them to access their existing BI platforms as well as any new additions as a part of their roadmap.

## TIPPING POINT THAT LED TO A NEED FOR A BI PORTAL:

The roadmap and the strategic approach to enable self service modern BI tools in their organization, increased their need to gather and collaborate with reports from both legacy & modern BI solutions into a single portal for easier access of information and insightful decision making.

## PROPOSED SOLUTION & KEY OUTCOMES:

Establishment of a single BI portal that bridges the gap and integrates Legacy & Modern/cloud BI platforms that is highly customizable to suit the business needs of the end users and report consumers.

## MOST EXCITING FEATURES ABOUT BI HUB:

### Smart Search

Seek and find multiple reports that got lost in time, with a single click

### Single Sign On

Access all connected BI platforms by signing on to a single BI portal

### Customizable Folders & Favorites

Possibilities for end users to modify and adapt the report structure to suit business needs

## ABOUT PERI:

PERI is one of the leading manufacturers and suppliers of formwork and scaffold systems in the world. The company, with its headquarters in Weissenhorn (Germany), a workforce of 9,400 employees, more than 60 subsidiaries and well over 160 warehouse locations, provides its clients with innovative system equipment and comprehensive services relating to all aspects of formwork and scaffolding technology.
